

KEY - Ecological Enhancements

Sparrow Terrace located as indicated. To be 1SP Sparrow Terrace as supplied by

Swift boxes location as indicated. To be No.16 Swift Box as supplied

Swift Boxes shall meet the following criteria unless otherwise agreed in writing by the Local Planning Authority: 1) Be located a minimum of 5m above ground floor level; 2) Be located beneath the eaves of the dwelling as close to the

KEY - Play Area

Ref: BX17 4000-RT 'Roslin Seat' (supplied in black) mild steel seat with armrests, as supplied by Broxap or similar approved. Seat to be installed with submerged fixing set in concrete footings to manufacturers specification.

Litter bin - Derby Standard Litter Bin (Ref:BX45 2550-S), in black as supplied by Broxap (www.broxap.com) or similar approved.

Timber log seats

Tree trunk to be laid horizontally for seating or climbing. Trunk to be prepared for use in a public area with branches cut back to leave a rustic and relatively smooth finish.

Snail marble run

Timber marble runs (Ref:J2 Snail Marble Run) as supplied by Russell Play (www.russell-play.com)or similar approved. Installed within grass matting appropriate equipment in accordance with EN 1176.

Timber spiral stepping logs and balance pole Timber stepping logs laid as a spiral with a balance pole including bird carving (Ref:H7 supplied without footholds) as supplied by Russell Play (www.russell-play.com) or similar approved. Stepping logs to vary in height, to a maximum height of 0.4m above ground

damage to the play elements

level. Installed to play manufacturers details in accordance with EN 1176. All play elements and layout proposals to be specified in accordance with the

requirements set out under BS EN1176 and the Disability discrimination Act. Signage will be erected in a location approved by the local council and will state:

 the area is solely for use by children adults are not allowed unless accompanied by children dogs are excluded the name and telephone number of the managing body to report any incident or

 location of the nearest telephone The exact specification and details should be discussed and agreed with the local authority.

Snail Marble Run (Ref J2) Balancing pole including bird carving

Timber stepping logs - logs to be a maximum height of 0.4m, laid in a spiral formation.

All shrubs to be planted in accordance with horticultural best practice guidelines. No shrub species, size or location should be altered without prior approval from the Landscape Architect. Individual species to be planted in groups of 3-7 within mixed species beds. Planting beds to be mulched with 75mm layer of bark.

* Indicates shrubs to be planted to the front of the planting bed/path edge.

Supply Size(cm) Habit 60-80 Bushy Lonicera periclymenum All climbers to be planted in accordance with horticultural best practice guidelines. No

shrub species, size or location should be altered without prior approval from the

Turf to plot frontages to be laid as Rolawn 'Medallion', or similar approved

Landscape Architect. Planting bed to be mulched with 75mm layer of bark.

Pea gravel mulch

Minimum 40mm depth decorative pea gravel (10 mm) mulch to be used were small

areas of lawn would be awkward to maintain. Terram layer to be laid beneath.

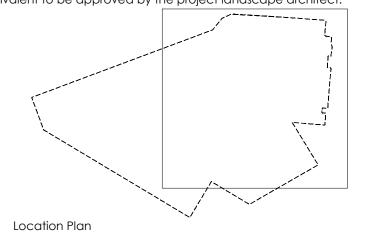

All landscape proposals must be referred to by the Structural Engineer during Shrub beds topsoiled to a depth of 300mm, turfed areas to a depth of 100mm. All planting to be implemented in accordance with horticultural best practice

No species, variety, size or position to be amended without the Landscape Architects prior approval. Before trees are planted, the Landscape Contractor shall ascertain the

location of drains from the site manager, and shall if necessary make minor adjustments to tree positions to ensure that they are planted at least 1.5m from drains. They should however be planted no closer to houses/garages than is shown on the drawing, and if shown located in shrub beds, the shape of the latter should be adjusted if necessary to accommodate the revised tree

If planting conditions are particularly poor e.g. waterlogged/frozen ground or poor soils, the Site Manager must be notified. All works will halt until conditions are considered acceptable.

All planting must be mulched to a depth of 75mm and in accordance with horticultural best practice guidelines ensuring plants are not buried. If planting is required outside the October-March season, bare root shrubs will be replaced by 3L pot grown plants, and trees will be replaced by a containerised equivalent to be approved by the project landscape architect.

Rev F: 30.01.2017 Minor amendments to locations of bird boxes. Rev E: 27.01.2017 Amended locations of bird boxes.
